

## **Motion: Match Junior National Track Events to Senior National Track Events**

Examples of:

Junior Omnium

Junior Points Race

Junior Madison

Junior TP

Junior TS

Benefits are:

Allow a smoother transition to the Senior ranks

Allow for more experience in these events

Allow for progression in racing abroad as these are the most common race types abroad

The above factors are important when Cycling Ireland consider selection for the National Team and also matching events will make for easier logging of rider result history and cross comparisons for when panels decide on rider selections
